EES Undergraduate Preregistration Advising

Advising Team

The EES undergraduate student advising team consists of Ms. Barbi Jackson and Drs. Jean-Claude Bonzongo, Paul Chadik and Ben Koopman. Freshmen are advised by Ms. Jackson and sophomores are advised by Dr. Koopman. If you're a junior or senior, your advisor will be Dr. Bonzongo, Dr. Chadik or Dr. Koopman, as specified at https://my.ees.ufl.edu/advisor/ugrad.asp. Feel free to contact your advisor for an appointment at any time during the semester.

Preregistration

Freshmen, sophomores, and seniors in their penultimate semester will meet with their advisor for preregistration advising. Juniors and seniors who are two or more terms away from graduation have the option of emailing their course selections to their advisor for approval. Alternately, they can make an appointment with their advisor for help in selecting courses. Graduating seniors meet with Dr. Koopman for exit interviews. See the flow chart below for guidance.

Flow chart for undergraduate preregistration advising

Approved Science/Design Technical Electives for Summer 2014, Fall 2014 and Spring 2015

Any in-department course that is not required (except EES 3000 and EES 3000L) may be used as a Science/Design Technical Elective. The out-of-department courses listed below may also be used as Science/Design Technical Electives, without the need for individual petitions. This list is subject to change and should therefore be consulted immediately before registration.

CGN 4905 Sustainable Engineering (can also be used to satisfy the Sustainability Elective)
ECH 3023 Material and Energy Balances
EGM 3520 Mechanics of Materials
EGN 4912 Undergraduate Research (maximum 3 credit hours)
SUR 3103 Geomatics
SWS 4244 Wetlands
SWS 4307 Ecology of Waterborne Pathogens
SWS 4550 Soils, Water and Public Health

Choose a maximum of one course from the following list of general engineering courses
- EGS 4038 Engineering Leadership
- EGN 4641 Engineering Entrepreneurship
- EGN 4643 Engineering Innovation

Choose a maximum of one course from the following list of introductory courses in geographic information systems
- GIS 3043 Foundations of Geographic Information Systems
- SUR 3393/3393L Geographic Information Systems
- SWS 4720C GIS in Soil and Water Science
- URP 4273 Survey of Planning Information Systems
